Clockmaker—adjust

your clocks by the Wireless Time Signals broadcast from the Greenwich Observatory
by the British Broadcasting Company.

Dozens of Watch and
Clock Firms have
adopted our

"Radiomatic
Receivers"
(illustrated)

for taking Time Sig-
nals, which proves
how the Trade ap-
preciates the fact that
absolute time can now
be taken by "every
one every day."

The "Radiomatic"
is exceedingly simple
to manipulate—can be
left in the care of a
junior with all con-
fidence.

Clockmaker—remember !!!

You can regulate your clocks by the Wireless Time Signals broadcast from the Greenwich Mean Time Clock by the British Broadcasting Company.

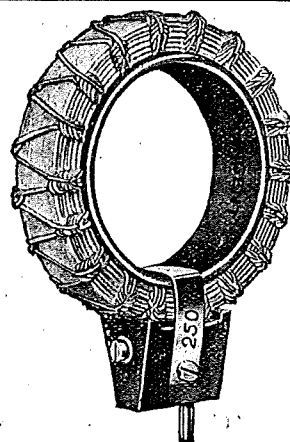

Dozens of Watch and Clock Firms have adopted our Assembler's Outfits for this purpose, which shows how the Trade appreciates the fact that Greenwich time can now be taken by "every one every day."

Gents' manufacture and stock all components for building their
"Radiomatic" Assembler's Outfit—

or all components can be supplied assembled on actual panel—all that remains to be done is the wiring.
