*A few Testimonials
out of many*

"I must assert, and I think with authority, that by no man, living or dead, have Electric Clocks been brought to such perfection as they have been by Mr. Hope-Jones."

*Mr. H. R. KEMPE, F.R.S., late
Chief Electrician to the Post
Office.*

"I have no hesitation in saying that your System as installed at Nottingham is as near perfection as anything ever will be in this world, and I shall be very pleased to give this recommendation, privately, to anyone."

*Mr. J. SAYERS, Chief Telegraph
Superintendent, Midland
Railway Company.*

"... The clock system is a joy, and the envy of every one who sees it. My Architect is going to mention it in an article on the restoration of this house which I believe he proposes to publish.

"I cannot help thinking that you would find a large market in the private house line if the system were better known."

*Lt.-Col. J. V. Ramsden, C.M.G.,
D.S.O., Shrewsbury.*

"Please put in hand another 40 dials. Now that they all keep together, and require no winding, we want one in every room."
